**Agenda**

The Natural Gas Research and Development Program Proposed Program Plan and Funding Request for Fiscal Year 2019-20 identifies and addresses emerging natural gas-related trends that are important to California’s energy future. During this workshop staff will discuss:

- Introduction and Purpose
- Staff Presentations on Proposed Natural Gas Research Initiatives
- Public Comments

**Background**

In 2004, the California Public Utilities Commission (CPUC) designated the Energy Commission as the administrator for natural gas research fund

(Decision 04-08-010). The Energy Commission manages these funds through the Natural Gas R&D Program. Staff will discuss research initiatives across all natural gas research areas including: energy efficiency, renewable energy, natural gas infrastructure and safety, natural gas-related environmental research, and natural gas-related transportation research.

Feedback will be gathered on the proposed natural gas research initiatives from utilities, researchers, manufacturers, end users, environmental and consumer representatives, policymakers from state agencies, federal agencies, and members of the public. Commissioners may attend the workshop, but no votes will be taken.

Results from the workshop will assist Energy Commission staff in developing the proposed natural gas research plan for FY 2019-20, which will be presented to the CPUC for final approval during a CPUC business meeting later in the year.

## **Public Comment**

**Oral comments:** Oral comments will be accepted during the workshop. Comments may be limited to five minutes per speaker. Any comments may become part of the public record in this proceeding.

Public feedback should focus on:

- Effective transfer and use of research results.

**Written comments:** Written comments must be submitted to the Docket Unit by **5:00 p.m. on January 31, 2019**. Written comments will also be accepted at the workshop; however, the Energy Commission may not have time to review them before the conclusion of the meeting.
